Rock Path Collective
Franchise:
SnakEscape
Rel

English,Russian,French,Ukrainian,Swedish,German,Czech,Portuguese,Simplified Chinese,Korean,Polish

terribly clunky puzzle game. The cuteness of the apple alone made me buy this. On a more serious note, it's quite a challenging turn-based puzzle game with a new, fresh take on the old 'n' good Snake. Sometimes getting three stars will take a while.. The game is quite fun and challenging, but the level editor seems to be broken beyond all functionality (I'm on Linux); keyboard

strokes are double, it is impossible to test or to save a level, and the experience gets frustrating. I hope these issues may be fixed in the future for the game is very nice and it would be nicer if one could actually make new levels.. Cute game with low coast. I think everyone should try it if you would like to see classic snake game upside down.. Pros --it's fun if you like this sort of puzzle game Cons --annoying, repetitive music --controls aren't the best --not a ton of levels. doing reviews cuz i can. Just chill and play.. pretty good game. boringgame

SnakEscape 1.1.2 Changelog : Dear friends! We are continuing our support of the game and add features suggested by You previously. We would like to thank a user that goes under the nickname markakeen for suggesting mouse control improvements. As so it happened we also have integrated a minor fix that aims on updating the main menu for better experience for newcomers! Patch 1.1.2 Changelog:. SnakEscape 1.1.3 Changelog : Hello, guys!
